ABOUT THE MINNESOTA CERTIFICATION BOARD:

The Minnesota Certification Board (MCB) is the Minnesota member board of the International Certification and Reciprocity Consortium (IC&RC). IC&RC is the global leader in the credentialing of prevention, addiction treatment, and recovery professionals. Organized in 1981, it provides standards and examinations to certification and licensing boards in 25 countries, 47 states and territories, five Native American regions, and all branches of the U.S. military.

IC&RC protects the public by establishing standards, developing examinations and facilitating reciprocity for the credentialing of addiction-related professionals.

ABOUT PEER RECOVERY SPECIALISTS:

Peer Recovery Specialists help a person become ready and willing to seek treatment (if needed) and enter recovery by helping the person explore their options for recovery or treatment. Peer Recovery Specialists ask questions, offer insight, and help service recipients as they become whole, resourceful, and capable of choosing what is best for them.

Peer Recovery Specialists use a strengths-based approach helping service recipients find and utilize their values, assets, and strengths while supporting them in achieving success. They recognize that it is normal for recovering service recipients to have gaps in their skills or development. The role of the specialist is to help service recipients recognize and fill these gaps with the skills needed. Peer Recovery services focus on the present and future and are based on partnership with the recipient.

The role of Peer Recovery Specialists can be viewed on a continuum of services and falls between the role of recovery support individuals/recovery sponsor and the substance abuse or mental health counselors. The role of the Peer Recovery Specialist has emerged from the recognition of a need to reconnect substance abuse and mental health treatment to the larger continuum of recovery management. The peer is not a sponsor or a therapist but rather a role model, mentor, advocate, and motivator.

The Certified Peer Recovery Specialist credential may lend itself to the workforce crisis facing the substance abuse and mental health field today. By the identification of these individuals who are in the recovery community, a pool of recovery experts will be created, some of whom may choose to go on to work in a treatment setting in various capacities. Peer Recovery Specialists may be individuals in recovery, members of recovery community organizations, those affected by substance abuse and mental health, those who work in the substance abuse or mental health field that do not meet the present educational and supervisory criteria for clinical based certifications, and others who possess knowledge and support of long-term recovery.

Formal post-secondary education is not a requirement for obtaining the peer recovery credential. However, emphasis will be placed instead on training, specifically in the domains of advocacy, ethical responsibility, mentoring and education, and recovery/wellness support. Ongoing training will also be required for the maintenance of the peer recovery credential.

LENGTH OF INITIAL CERTIFICATION

Initial MCB certification is good for **one year**, starting from the date your certification is approved. An expiration date will be provided on your certificate.

FIRST ANNUAL RENEWAL

After your initial certification, you must renew your certification after one year. A renewal notice will be mailed to your address on file in advance of your renewal date. After your initial certification and first annual renewal, you will move to a two-year recertification cycle.

RECERTIFICATION

Your first recertification will occur **two years** after your initial certification date. MCB requires recertification every two years in order to maintain high standards of professional practice and to assure that Peer Recovery Specialists remain up to date in the field. A recertification application packet will be mailed to your address on file in advance of your recertification date.

The purpose of appeal is to determine if MCB staff accurately, adequately and fairly reviewed applicant's file. If you wish to appeal, you must write to MCB within 30 days when you were notified of the staff's action. The appeal letter must be postmarked no later than thirty days after the staff action.
